

ABOUT THE SCHOOL

Nigeria-Korea Model School Primary is a Public Primary School managed by the FCT Universal Basic Education Board (UBEB). It is an ICT cum Multimedia Based educational institution - combining conventional teaching methodology, innovative teaching skills and global Standard teaching and learning with world class facilities and well trained, qualitative, and competent teachers. The school operates the Nigeria Educational Research and Development Council (NERDC) curriculum for Primary schools as broken down by the FCT Education Resource Centre (ERC) and School based curriculum.

The Primary school offers education for learners from Primary 1 to 6 and has adequately trained teaching staff locally and internationally, admin staff, facilities cleaners and school administrators led by the head teacher.

It is tuition free, highly competitive and provides excellent quality education for cognitive, affective and psych motive development of the child.
